PRESS RELEASE

OSMOSE ANNOUNCES SAFETY MILESTONE – 6 YEARS WITHOUT A LOST WORKDAY CASE

TYRONE, Ga. – Osmose Utilities Services, Inc. recently achieved a significant safety milestone by passing six consecutive years without a lost workday injury case. Osmose services include the inspection and restoration of utility poles and T&D system infrastructure for utility companies throughout North America. Osmose personnel also provide storm recovery services, helping utilities respond to damage caused by hurricanes, tornados, ice storms, wildfires and other natural disasters. Despite the hazards often associated with such work, Osmose employees have logged more than 16.5 million safe work hours in the past six years!

The culture at Osmose centers on performing quality work safely. Osmose Safety Director, Bob Bleech said, “We stress training, education, communication, and personal accountability as part of our safety culture.” Utility companies expect their service providers to work safely at all times, even under the most difficult circumstances, and Osmose strives to deliver on that expectation.

About Osmose

Osmose provides professional grade inspection, maintenance, and rehabilitation services for aging T&D infrastructure. Osmose also provides utility data solutions and engineering services - from GIS related surveys for network connectivity and joint use, to pole loading analysis for make-ready design and regulatory compliance. With more than 75 years of diverse experience as a foundation, Osmose proudly serves America’s utilities as they manage aging infrastructure and build tomorrow’s intelligent utility. www.osmoseutilities.com.
