OSMOSE ANNOUNCES SALE OF SUBSIDIARY - OSMOSE COMMUNICATIONS SERVICES

Peachtree City, Ga. – Osmose today announced the sale of the assets of its subsidiary Osmose Communications Services, LLC. (OCS) to Englewood, NJ-based SQUAN, a leading infrastructure service provider.

Over the next few months, the OCS brand will transition to SQUAN Transport Services. Andy Blackwell will continue to lead the organization, reporting to SQUAN Senior Vice President, Keith Pennachio, and the company will continue to function from its current offices in Conway, West Monroe, Atlanta, Miami, Tampa, Denver, and Durham.

“This move will allow Osmose to focus on our growing utility structure services. We are confident that SQUAN has the leadership, expertise, and resources to provide best-in-class services to OCS’s customers going forward,” said Jeff Giffen, Vice President - Engineering at Osmose.

About Osmose

Osmose provides professional grade inspection, maintenance, life extension, and rehabilitation services designed to help build resiliency into T&D infrastructure. Osmose also provides corrosion mitigation and engineered repairs for steel structures, structural load analysis, and a variety of turnkey infrastructure enhancement and upgrade solutions. With more than 80 years of diverse experience as a foundation, Osmose is proud to partner with America’s utilities as they manage aging infrastructure and build tomorrow’s intelligent utility. www.osmose.com.
