

AnimalGuard II

HELPING PREVENT ANIMAL-RELATED OUTAGES

Animals are among the leading causes of power outages. AnimalGuard is a polyethylene deterrent designed to help prevent animals from climbing poles and reaching energized equipment. AnimalGuard provides dependable, long-term protection and is easy to install. The special formulation of high density polyethylene holds up against sharp claws and resists sun, wind, and weather.

- ✓ **Weather resistant** - UV inhibitors help protect it from light degradation
- ✓ **Durable** - high density polyethylene withstands sharp claws
- ✓ **Lightweight and easy to install** with hammer and nails; easily cut with aviation shears

Ordering Information

AnimalGuard is available in both roll and pre-cut sheet forms. AnimalGuard sheets come in two sizes and have pre-drilled holes along the width of the sheet for quick and easy installation on distribution and transmission poles.

Item	Item ID	Measurements	Unit/Packaging
