

37. ENERGY MANAGEMENT POLICY

MP Power Ltd is committed to minimising our impact on the environment as far as possible, to preserve our environment for the benefit of present and future generations.

We aim to work towards [ISO 50001](#)

We aim to deliver on this commitment by: -

- Promoting the concept of the energy efficiency at all levels in the company
- Identifying improved energy technologies and deploying them where practical.
- Looking to implement a programme of continuous improvement of energy efficiency. This programme will address the activities which most significantly impact energy use.
- Providing our staff with the necessary awareness, education and training to implement this policy.
- Ensuring that adequate resources are deployed to enable the energy policy to be implemented where practical.
- Complying with all relevant energy legislation, legal or other requirements, that relate to the energy use consumption and efficiency.
- Communicating this energy policy at all levels within the company
